## Work Experience

---

### Raise Digital

October 2023 – November 2023

Frontend Developer

Bengaluru, India

- Developed and maintained user interfaces using **Tailwind CSS**.
- Implemented front-end library **ReactJS** to make web pages interactive and **reusable** for future use.
- Participated in team meetings, providing insights and suggestions to improve overall web development processes.
- Collaborated with cross-functional teams to translate design wireframes and mockups into responsive and interactive web pages.
- Conducted testing and debugging to ensure seamless functionality and enhance user experience.
- Gained practical experience in agile development methodologies and version control systems.

## Project Work

---

### E-commerce Website | JavaScript, Tailwind CSS, Html

- Developed a fully functional e-commerce platform using modern web technologies, enhancing user experience and boosting online sales.
- Utilized Tailwind CSS for designing responsive and visually appealing user interfaces, ensuring compatibility across various devices and screen sizes.
- Conducted thorough testing and debugging to ensure website functionality and resolve any issues promptly.

### Resume Builder | Next.js, Tailwind CSS, Html

- User-Friendly Interface: Designed an intuitive user interface using HTML, CSS, and JavaScript, ensuring an easy and seamless user experience.
- Responsive Design: Utilized Tailwind CSS to create a responsive design that works flawlessly on both desktop and mobile devices.
- Template Customization: Implemented a variety of customizable templates to cater to different professional needs and preferences.
- PDF Generation: Integrated a PDF generation tool to allow users to download their resumes in high-quality PDF format.
